DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to a process for applying a liquid to a solid.

Group II, claim(s) 12-18, drawn to a device for applying a liquid to a solid.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Motoyama et al. (EP 0179,943) teaches all the limitations of claim 1 (see p. 3, middle paragraph). Therefore, there is no common special technical feature between groups I and II.
